This is a variant version of Scrabble Game which supports 2~4 players to play at the same time. It also includes special tiles and challenge feature in this game.

There are at least five types of special tiles:

- Negative-points
- Reverse-player-order
- Boom
- Dispose: if you trigger this special tile, next turn you could only have 5 tiles at rack at most after refilling tiles from the Tile Bag. (e.g. this turn you place 6 tiles to place a word, but trigger the Dispose, you only have 1 tile left on the rack. Next turn you could only have 4 tiles from the tile bag. If you place only 2 tiles, i.e. the least number of tiles should place a word, you have 5 tiles left on the rack. Next turn you have 0 tiles from the bag.)
- Other
